

Opportunity

H.E.R.E. International, Inc.

Disasters leave millions of people homeless each year, according to the United Nation's International Decade for Natural Disaster Reduction. **H.E.R.E.** is the answer!

The humanitarian and disaster solutions provided by our company, **H.E.R.E. International, Inc.** utilizes US Patent #6,983,567 "Containerized Habitable Structures" which is a re-deployable structure for use in disaster relief or mass housing worldwide.

The system incorporates SIPs (Structural Insulated Panels) and marries them into the structural integrity and transportability of a new or recycled ISO intermodal shipping container. The uniqueness and efficiency of its design allows the structures to be stacked seamlessly with other containers on transport ships, docks, or railway cars and can be easily placed onto truck transports like any other shipping container. For military or hard to reach areas our structures can be easily air-lifted by helicopter or cargo plane directly onto the deployment site.

Another unique feature is that we have the flexibility to set up a factory on-site or the surrounding area, thus creating new jobs and benefiting the region by employing the local displaced residents as a part of our projects.

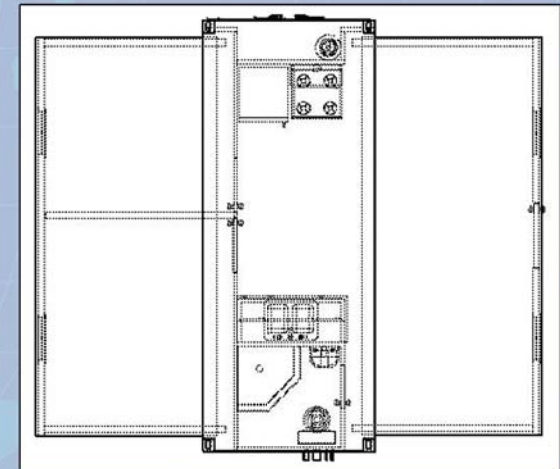

Once deployed, the container unfolds and creates an expanded living or operating space. Using this patented design, a typical 450 ft² (45 m²), 2-bedroom house is contained within a 20' shipping container and unfolds like an "old time pop-up book." The structures can be fully plumbed, wired and ready for connection to utilities, for on-grid applications. The off-grid options can include innovations like solar electricity, generators, a self contained septic system, a composting toilet, gray water recycling capability, a water generation system (air-to-water technology), and ozone sanitation.

Additionally, our structures can include furnishings, appliances, clothing, food, water, medical and other disaster supplies; all self contained inside each unit.

Once the structure has fulfilled its need in one location, it can be folded back in and deployed to another location or event.

Tsunamis, hurricanes, earthquakes, floods, landslides, fires, and tornados are just a few ways Mother Nature impacts the lives of countless millions annually. *Are you prepared? Is your community prepared?* Scientists predict that the next decade will be 5, maybe even 10 times worse than the past five years. Civil unrest impacts millions more. Disasters for the next decade, including natural and man-made, are estimated by some to be in the tens of trillions of dollars.

Our Vision

H.E.R.E. International, Inc. (Housing & Emergency Relief Efforts) a wholly owned subsidiary of Aquentium, Inc. has successfully designed both a housing and community infrastructure that provides people from around the world with a sense of community in the direst of conditions.

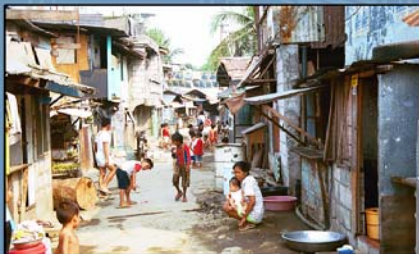

Our overall vision is to provide a safe and secure year round environment anywhere in the world for any type of planned event or unplanned catastrophic condition. In addition, this same vision includes the ability to provide the all-important infrastructure needed in these situations.

We are dedicated to improving the basic standard of living for human beings worldwide, and in many cases, where there is no standard at all.

Our company provides a patented technology which is uniformly assembled anywhere in the world. The entire structure is fully assembled and shipped within the container, ready to be installed upon deployment. Our multi-use structures can be remotely located and re-located in time sensitive situations.

Our Mission is to build homes that people can take pride in, raise a family, have personal dignity and peace of mind.

H.E.R.E. International, Inc. is positioned to become the worldwide leader in sustainable housing and disaster solutions. One of *H.E.R.E.*'s many advantages is that our patented technology enables us to have manufacturing and distribution facilities strategically placed worldwide to better serve the ever-increasing demands of Mother Nature and civil unrest.

An average view of life in most parts of the world.

Solutions

- COMPLETE HOME IN 60 MINUTES
- PATENTED TECHNOLOGY
- PROVEN RELIABILITY
- EXTREME TEMPERATURES
- CUSTOMIZABLE FLOORPLANS
- ON OR OFF-GRID USE
- PERMANENT OR TEMPORARY
- RE-DEPLOYABLE
- REMOTE DEPLOYMENT
- UN/NATO/MILITARY AIRLIFT
- SUSTAINABLE DEVELOPMENT
- EMPLOYMENT OF DISASTER VICTIMS
- DISASTER EVENTS
 - EARTHQUAKES
 - HURRICANES
 - TSUNAMIS
 - TORNADOS
 - FLOODS
 - CIVIL UNREST
